## MY OBJECTIVE

I am a highly motivated graphic designer seeking a full-time job to use the knowledge and experience I have learned in my education to further my abilities. I have the dedication and positive attitude that will allow me to bring new and creative ideas to your organization.

## ABOUT ME

I am a graduate of Central Connecticut State University as of May 2020. I pursued my undergraduate degree in Graphic Design and a minor in business. Designing has always been my passion. Whether it's designing logos, packages, posters, or websites, I love what I do and I adore the creative process. It's addictive and can give never ending possibilities. And I am always up for a challenge.
